Things That Do Not Go In a Bag or Container

Newspapers, magazines · One 10L ticket per every 10cm of height	Cardboard · One 10L ticket per every 2 items
Polystyrene foam, 18L canisters · One 10L ticket per item	Fluorescent tubes · One 10L ticket per every 2 items

The separation is the same as that of household waste.
You can check the "How to sort and dispose waste and recyclables (Foreign language version)" here.

The collection day schedule (Foreign language version) can be checked here.

STEP 4 Make sure of the collection day before putting your waste out.

*When you put it out for the first time, please contact the Waste Collection Office in advance.

Important Points

- ① Fees apply for business waste because, by law, the business operators are responsible for the proper disposal of the waste generated by their business activities.
- ② Bulky waste is not collected by Suginami City. Please contract with a licensed waste collection and transport operator. (Bulky waste is defined as any item with a maximum dimension over 30 cm.)
- ③ If your business and residence are the same, please put out your "business waste (fees apply)" and "household waste (free)" in separate bags.
